

# The Premier Australian Developed and Manufactured Termite Barrier Systems for every application

## TERM-seal™ Barrier Systems for New Buildings

### TERM-seal™ Termite-Pro Perimeter Retreatment System

TERM-seal™ Termite-Pro Perimeter Retreatment System can be integrated with our other systems to provide comprehensive termite protection to both new buildings and renovations or additions to existing buildings.

### TERM-seal™ PRM Active Cord & Capping Strip

TERM-seal™ PRM Active (poly reinforced membrane) is a specialised termite and waterproof sheeting and doubles as a damp course over masonry.

### TERM-seal™ Ura-Fen Shield TWB

TERM-seal™ Ura-Fen Shield Termite & Waterproofing Barrier is a triple layer sheet barrier used to form a continuous waterproof and termite resistant barrier around the cavity perimeter and construction joints of new slab-on-ground structures.

### TERM-seal™ Ura-Fen Major

TERM-seal™ Ura-Fen Major is a two-component Polyurethane settable foam specially engineered for use in building situations to fill gaps, fissures and cavities.

### TERM-seal™ EZY-Collar

TERM-seal™ EZY-Collars provide a termite and moisture proof seal where concrete slabs have been penetrated to accommodate services and are complimentary to our rigid TERM-seal™ Penetration Collars. Available to fit 100mm pipes.

### TERM-seal™ Penetration Collar

TERM-seal™ Penetration Collars are available to fit pipe diameters of 40, 50, 65, 80 and 100mm and are installed in conjunction with TERM-seal™ Sealant Active to seal off concealed access for termites.

### TERM-seal™ Soft Annular Collars

Various regions of Australia require the drainage network of a structure to be water tested by the plumber for council approval. In these situations, the caps are glued on by the plumber making the installation of rigid collars impossible.

# TERM-seal™ Waterproof Coatings & Sealants

## TERM-seal™ Multi-Purpose Active Coating

TERM-seal™ Multi-Purpose Active Coating is a highly engineered, acrylic polymer-based liquid which upon curing forms a seamless, flexible, termite resistant and waterproof membrane.

## TERM-seal™ Sealant Active (Crack & Joints)

TERM-seal™ Sealant Active is a specially for use in joints and racks of all types.

# TERM-seal™ Application Accessory Products

## TERM-seal™ Ura-Fen Adhesive

TERM-seal™ Ura-Fen Adhesive is used as an aid for the installation of plastic sheet barriers.

## TERM-seal™ Reo-Band & Reo-Sheet

TERM-seal™ Reo-Band & Reo-Sheet is a glass fibre reinforcing for use in conjunction with TERM-seal™ Multi-Purpose Active Coating.

## TERM-seal™ Prime Coat

A high-quality acrylic based primer for use on concrete and masonry surfaces for both internal and external applications.
